

murders had been to Jim Mills' with her story and that Dr. Cooper was advising Mills and Mrs. Gibson. Between ten days and two weeks ago Mrs. Reed, Mrs. Mills sister, gave a newspaper interview in which she said that Mrs. Gibson had been to Mills within a few days after the murders with her story and at the same time my recollection is that Mrs. Reed said she saw Jim Mills on the night of the murders.

All the foregoing seems to be quite evident that either Mrs. Gibson or Jim Mills or Charlotte four years ago were trying to bolster the Gibson story by an alleged interview between Mrs. Gibson and Mills and also to endeavor to show that the story was supported by Dr. Cooper. It seems to me very important that this phase of the matter should be checked up as I think we will find someone lying.
